

Letter of Condolence from OSHA

Everyone at OSHA, and all the VPP sites in Region VI, would like to take a moment to let our friends at NASA, the families of the seven astronauts, our friends associated with NASA and all of their contractors know that our thoughts and prayers are with them as they deal with the loss of the seven astronauts and the shuttle Columbia.

No one knows better than those involved with VPP the hazards that people face on the job every day. For the safety and well being of others, these seven heroes paid the ultimate price. Those that sacrificed their lives will never be forgotten and the lessons we learn from this tragedy will be used to save others in the future.

You are all in our thoughts and prayers as we move forward from this tragedy. I think President Bush said it best... "The same Creator who names the stars also knows the names of the seven souls we mourn today. The crew of the shuttle Columbia did not return safely to Earth; yet we can pray that all are safely home."

*Bill Klingbeil
Region VI VPP Manager*
